

Dataset presentation – Olympic Games

Hi! PARIS DataBootcamp 2024

1. About the dataset

The **athlete_events.csv** dataset contains historical data on the modern Olympic Games including all the Games from Athens 1896 to Rio 2016 (Summer and Winter).

The dataset contains 15 columns and around 270 000 rows. Each row represents an athlete that competed for a sporting event during an Olympic game.
